

tritone

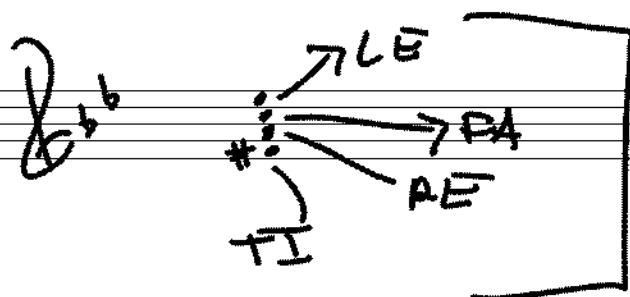

↳ where to find them in major & minor

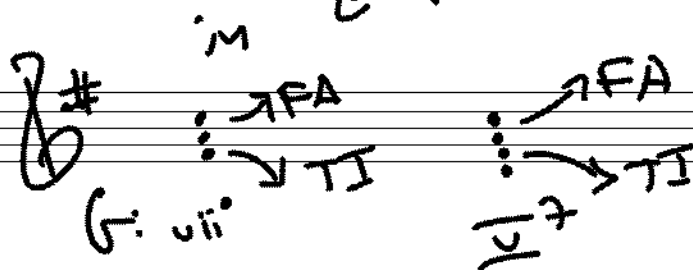

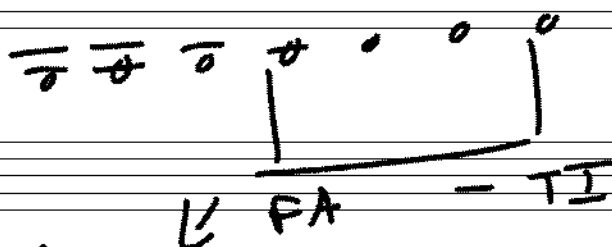

In minor, there are four tendency tones:

DE & LE (WHEN THEY ARE FOUND IN a ii° chord) and FA and TI (WHEN THEY ARE FOUND IN a vii° or V^2 chord)

Curiously: all 4 happens together as vii°!!

Major: $\text{F}\sharp$

In major there are only two: FA & TI
 when they are found in a vii° or $\text{V}^\sharp$
 chord.
